# TURUTA ELECTRONICS WORLD

SEMICONDUCTOR COMPONENTS DATABOOKS, SERVICE MANUALS, DATASHEETS, REPAIR TECHNOLOGIES INFO

Since 2008 TURUTA ELECTRONICS WORLD are the worldwide leading publisher of e-format databooks for semiconductors info like transistors, diodes, thyristors, integrated circuits. Any electronic engineer nowadays is able to work sensibly and rationally with our products as databooks and online database. Anybody missing vital information at the decisive moment is throwing away expensive work time. We will help saving your time, nerves, energy and money. Trust a company being more than 5 years on the market.

## Online SMD and leaded electronic components marking database

A weekly updated online database that includes now more 240.000 marking codes for different SMD and leaded, passive and active electronic components like fuses, diodes, thyristors, transistors and integrated circuits.

### • Features:

- Search by marking code;
- Search by marking code with case class (pin number) selection;
- Exhaustive info about found electronic component;
- Direct link to a electronic component datasheet download;
- Direct link to a manufacturer web page.

You will get access to an online database after create account ([registrar](#)). After registration you will have trial access that allow you to search 2 marking codes. For full (1 year) access to the online SMD and leaded electronic components marking database you need to [subscribe](#) (become a member).

## Service manual

Service manuals for fax, printer, copier, mobile and wireless phone, amplifiers, car stereos, cassette decks, Blu-ray/DVD/CD players/recorders, compact stereos, equalizers, receivers, cameras, reel recorders, tuners, and other audio equipment, camcorders, monitors, TVs (including LCD, plasma PDP, projection TVs), and TV/Blu-ray/DVD/CD/VCR combo units. We have more than 80.000 documents in our growing collection!

Service manual pages navigation and searches available for any TURUTA ELECTRONICS WORLD visitors.

Free service manual download available only for subscribed member of TURUTA ELECTRONICS WORLD.

## Electronic format databooks

TURUTA ELECTRONICS WORLD are the worldwide leading publisher of e-format databooks for semiconductors info like transistors, diodes, thyristors, integrated circuits.

### • SMD-codes datbook, 2012 Edition

A new 2012 edition SMD-codes databook in electronic format from a known author Eugeniu Turuta presents the SMD-codes for active semiconductor components. This book includes now 235.000 SMD-codes for different semiconductors like diodes, thyristors, transistors and ICs.

### • STK and STR integrated circuits, 2011 Edition

Data book about the common and very popular STK (Sanyo) and STR (Sancken) hybrid integrated circuits. Over 1.600 circuits from STK0025 to STR-Z4579.

Connection diagram, application, short description, table of characteristics with all common parameters, replacements, case outline drawings available for all integrated circuits.

### • Power audio amplifiers - integrated circuits, 2012 Edition

A new, 2012 edition data book in electronic format from a known author Eugeniu Turuta presents the standard and modified circuit diagram, short description, electrical characteristics, pinouts and conventional case drawings of the integrated circuits - power audio amplifiers.

This book includes about 6800 most popular integrated circuits - power (final) audio amplifiers and for today is the most complete databook in the world.

Anyone TURUTA ELECTRONICS WORLD visitor can download sample (demo) version of all databook.

Purchase of TURUTA ELECTRONICS WORLD databooks is very simple and can be made directly from web-page through PayPal payment system. If you don't have access to the PayPal payment system, write to a [eturuta@gmail.com](mailto:eturuta@gmail.com).

A new editorial policy of TURUTA ELECTRONICS WORLD allow to propose the special (discount) price for the news databooks and subscription for already existing customers (any Turuta Electronics World old edition databook buyers) and subscribed members.

**SECTION17**  
**Adittional SMD info**

Besides SMD code manufacturers can place additional information such as **internal production lot number**, **traceability code**, **data of production**, **assembly location** etc. The additional info is an arbitral position and arbitral content (depending of the manufacturer) and can be alphanumeric symbol (symbols) or graphic symbol.

Below we present some additional info.

**Lot number.**

Manufacturer: **Elm (ELM Technology Corporation):**

**Rules 1 (for ODO voltage detectors)**

Symbol 1 - A to Z(I, O, X excepted)

Symbol 2 - 0 to 9

**Rules 2 (for PPO voltage detectors)**

Symbol 1 - 0 to 9

Symbol 2 - A to Z(I, O, X excepted)

Manufacturer: **Tor (Torex Semiconductor LTD):**

01~09, 0A~0Z, 11~9Z, A1~A9, AA~AZ, B1~ZZ repeated,

(G, I, J, O, Q, W excluded.) \* No character inversion used.

Marking example:

Marking example:

**Production data**

Manufacturer: **Anw (Anwell Semiconductor Corp.)**

Dot above product code: Lot Code:

Dot under product code: Year Code:

Marking example:

Manufacturer: **Ape (Advanced Power Electronics Corp.)**

**Code Year**

YY 2004, 2008, 2012

YY 2003, 2007, 2011

YY 2002, 2006, 2010

YY 2001, 2005, 2009

Marking example:

Manufacturer: **Axl (AXEelite Technology Co., Ltd)**

**Code Year Code Week**

**7** 2007 **A...Z** 1...26

**8** 2008 **a...z** 27...52

**9** 2009

**A** 2010

**B** 2011

**C** 2012

Marking example:

Manufacturer: **Di (Diodes Inc.)**

Y : Year : 0~9XXX

W : Week : A~Z : 1~26 week; a~z : 27~52 week; z represents 52 and 53 week

Manufacturer: **Inf (Infineon Technologies AG)**

Month	Year											
	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014
